# To the Reader.

In these Tables the Series of Years are Accommodated to the Dionysian, or Vulgar Era, of our SAVIOUR K<sup>S</sup> Birth J.C. An Mundi 5950 Julian Period 4714, Building of Rome 753. The 1<sup>st</sup> of the 195 Olympiad &c; And the Times of Death, & Succession (for the greatest Part agree with Those of Christopher Helvicus & Henry Isaacson) to whom, and the Other Authors Quoted the Reader is Referr'd.

The Particular Squares of each Kingdom (though not according to Antiquity) are Disposed in this Method, for the Conveniency of One State often Falling into the Square of Another. Yet for the Satisfaction of the Curious (for whom this is Intended) We have in a Table of Squares Drawn an Exact Scheme (according to the Best and Most Accurate) With whom, and in what Year, each Kingdom Began; with its Continuance, Expiration, Number, and the Authors Names, If so have Treated at Large on each Particular Kingdom. And in the Squares of the 1<sup>st</sup> Century, Begin an Authentick Account of the Antiquity of each Kingdom, till the Time of each particular King's First Commencing in History.

We have Likewise Represented the True Bearings, and Forms of the Arms, and Crowns of each Kingdom Hatched in their Proper Colours; I. The Eagle Sabre for the ROMAN and WESTERN EMPIRE. II. # The Use of these Chronological Tables.

The Tables to be first Consider'd are these the (First Table A.) the (Last Table Z.) The first is a Key in General, to the Particular Squares of Each Empire, Kingdom, &c. The other is an Explication of all the Several Characters & Marks contain'd throughout the Book. Every Kingdom is known by its Peculiar Capital Letter in its Square, distinguishing it from others, i.e. for the Popes, B. for the Empire &c. Imagine some of these are distinguish'd by certain Marks, from one another, but are still contain'd in the same Square; And this shew's the several States in one, & the same Empire & Kingdom. Example B. is the Square for the Empire in general, both Eastern, & Western and yet the Letter B is chang'd Five several Times in the Square i.e. B. (singular) signifies of Emperours in the East, and of Constantinople. B. (with T added to it) the Turkish, or Ottoman Empire. B. (with R to it) the Roman, & Western Empire.

B. (with a Point) Kings of Italy succeeding in the Empire. And lastly B. (with a Dash thro' B.) the Emp's of Germany now in Possession thereof. Thus E. is chang'd Thrice, i.e. E. (singular) England; E. (with 2 Points) Scotland. Having Rightly Perus'd this Key or Table, Proceed to the Several Characters & Marks in the Other Key, showing (in a very compendious Method) Each Princes Inclinations, Fortune, Death &c.

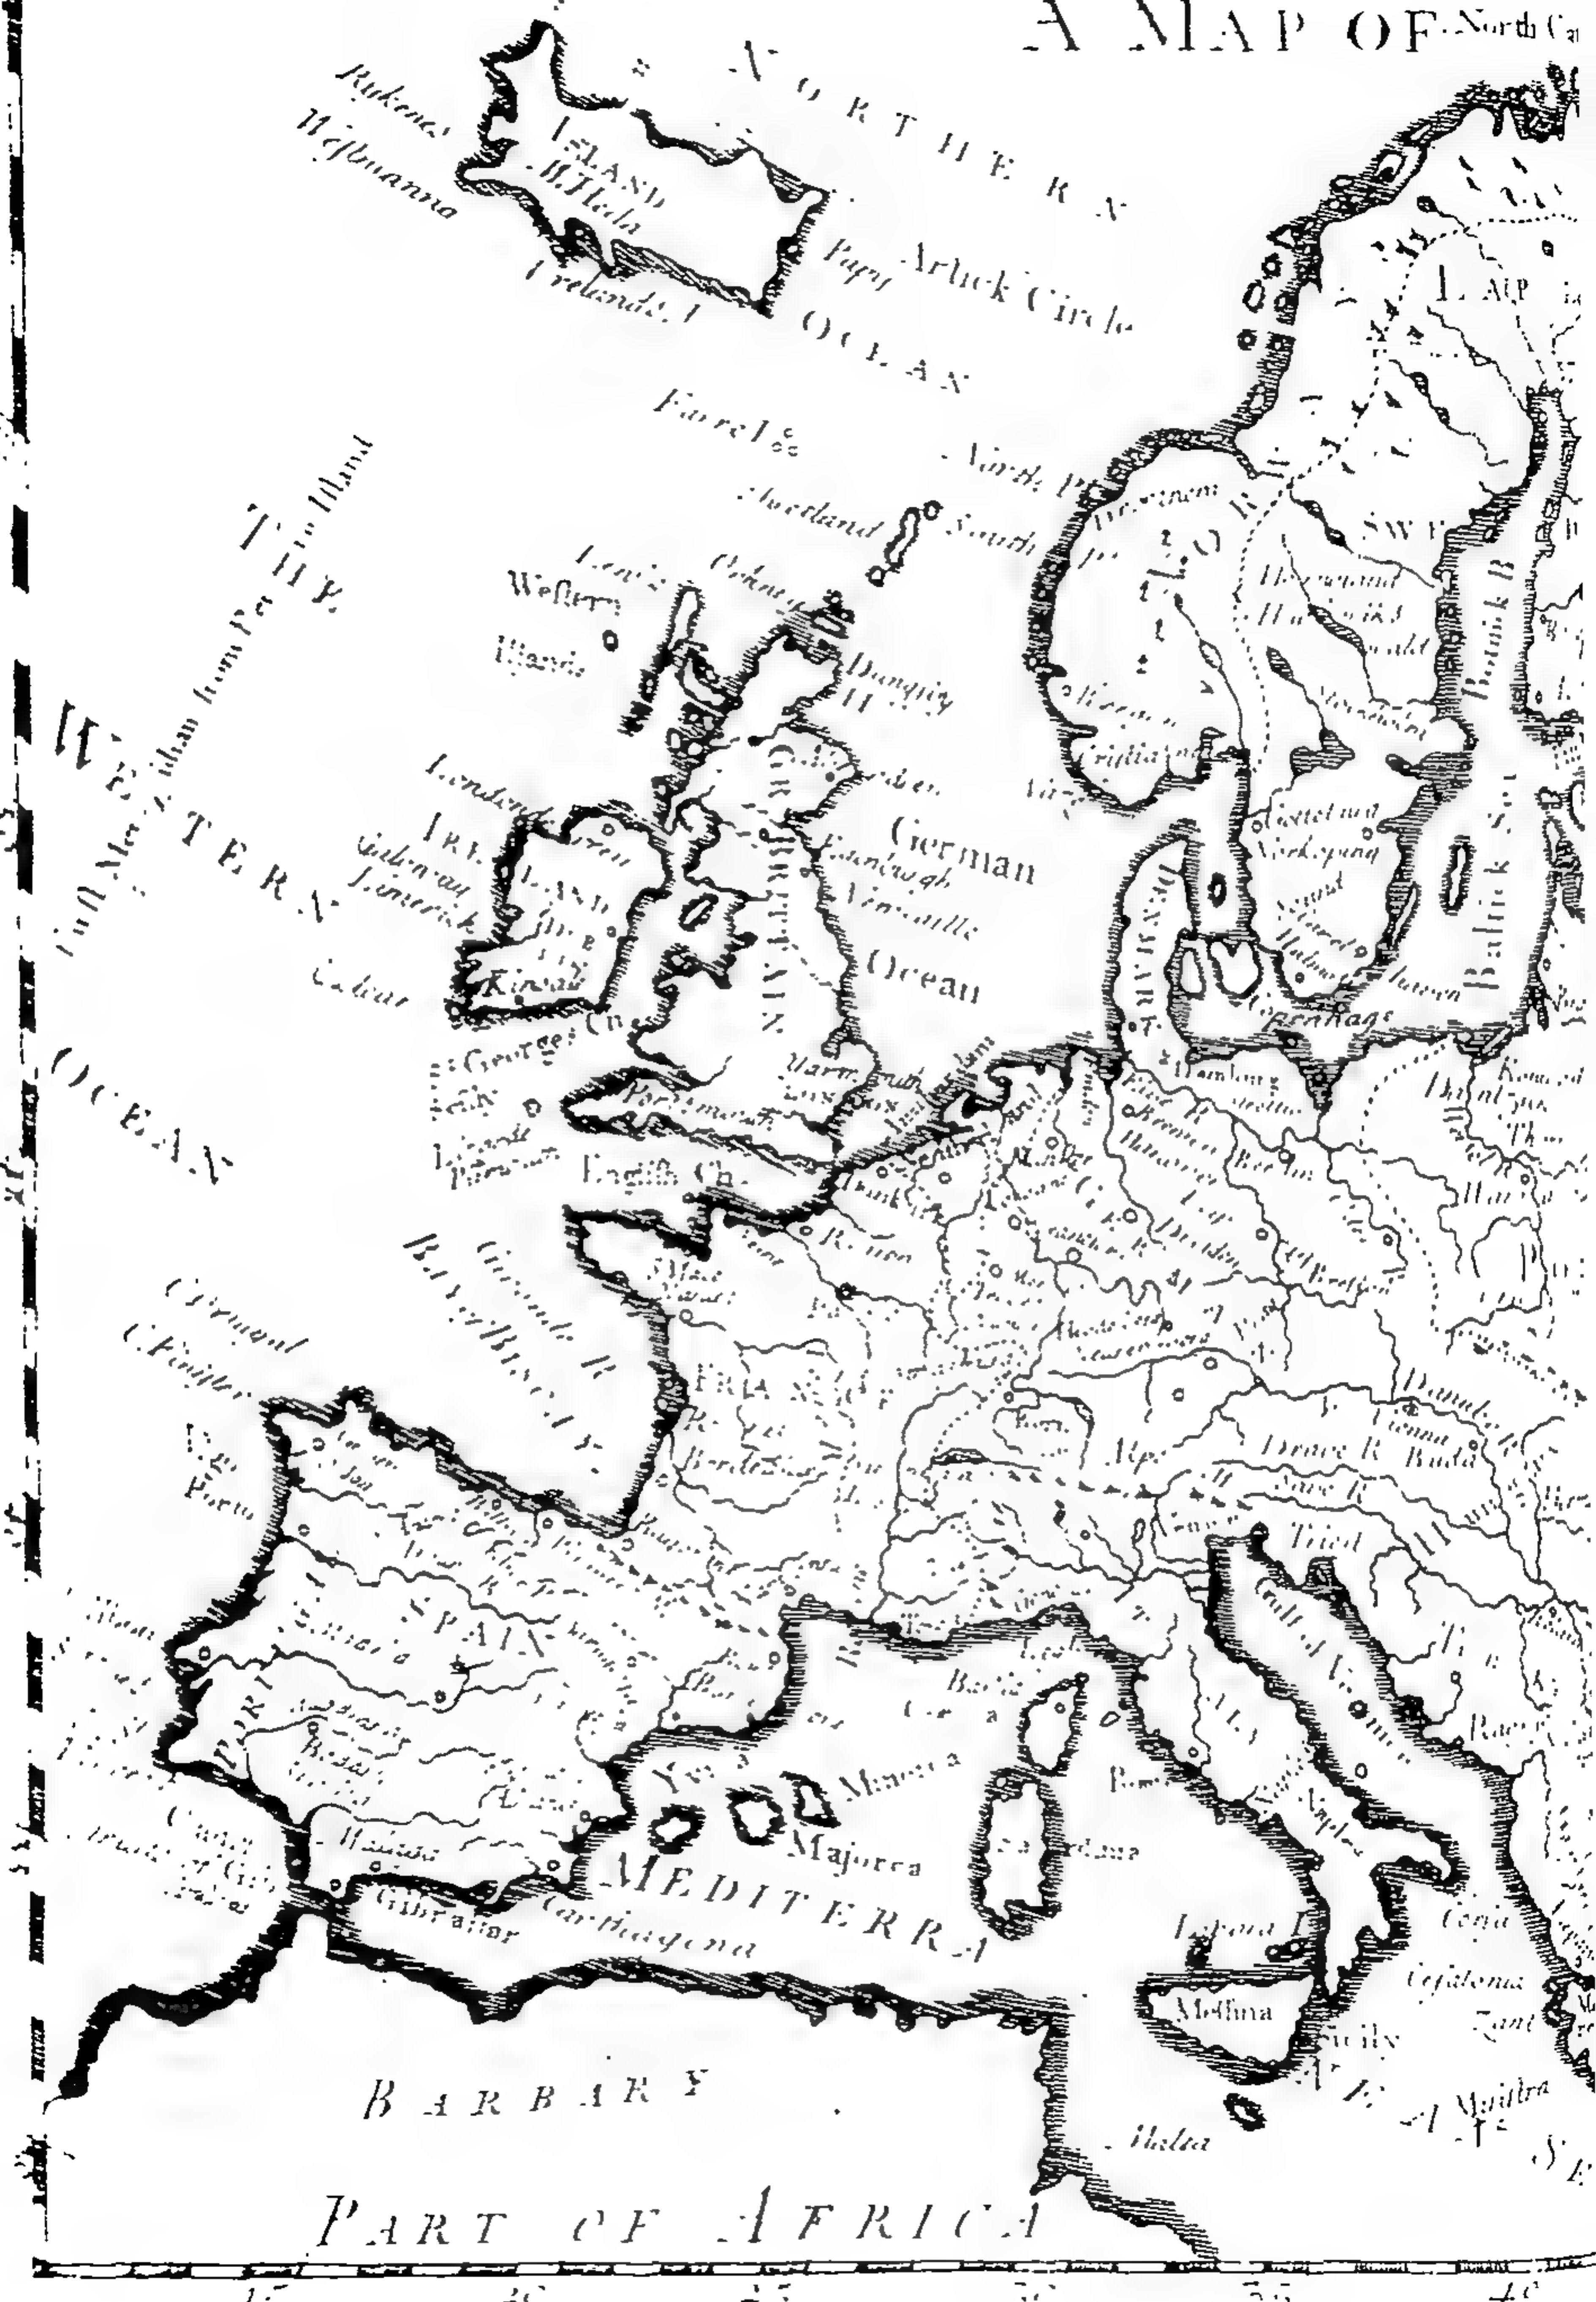

The Following Tables, Number'd C. C. 2. C. 3. &c. are the Several Centuries since the Birth of our SAVIOUR. All herein (in Distinct Squares) are Placed all the Popes, Emp's & Kings in each Century; in their true Order of Succession, with the Manner & Time of their Deaths,

In These. V. P. 1. P. 2. P. 3. &c. You have an Exact Alphabet of all those Popes, Emp's & Kings, Directing you immediately in which Square to find any of them you seek for. And to each Name is Affixed some of those Characters you will find Explain'd at Large in the Key, to which you are Referred.

Oliver James, in his *Aquinas and the Question of Right* (Stimmen der Zeit, 1902), has shown that Aquinas' theory of justice is based upon the same principles as those of the English Puritan divines. The Puritan theory of justice, however, was not developed by the Puritans themselves, but by the Calvinist divines of Scotland, particularly John Knox and George Buchanan. The Puritan theory of justice, therefore, is not a Puritan theory, but a Scottish theory.
